Protera Technologies Inc. provides SAP solution-related services for global enterprises by leveraging its state-of-the-art "AppCare" on-demand delivery platform. Since it was founded in 1998, Protera has empowered customers to realize the full potential of their ROI. The company offers customers this benefit by providing productized, cost-efficient, accelerated, state-of-the-art on-demand hosting; remote application management; and consulting services for customers operating SAP solution landscapes. Protera also provides consulting services specifically for SAP core technologies.

As a recognized SAP services partner, Protera Technologies helps its customers meet and exceed their business challenges by allowing them to focus on their core business mission while maintaining overall control of their SAP applications.
